

Power Your Payments with Tally. A Cost-Effective Way to Accept Payments.

Tally users save an average of 11% on payment costs vs. other providers, keeping more of what guests pay, and enjoying the same support they've come to expect from Beyond.

Tally is a ready-to-use payment processing solution accepting all major credit/debit cards, ACH, Apple Pay®, and Google Pay™, with a behind-the-scenes product for your team to manage daily payouts and reconciliation, transactions, disputes, and more. Easy installation and no development needed.

Know what you're paying with fee transparency. With Tally, your guests feel the impact too - one tap payment methods on your direct website increase trust in your brand and reduce friction at checkout.

How to use it:

- ✓ Establish trust with Tally's PCI-compliant payment gateway and advanced fraud detection.
- ✓ Save more of your hard-earned money with low flat rates and no hidden fees. Have clear insight into what you are paying for.
- ✓ Optimize cash flow oversight, receive daily settlements, and automate collections through one-time payments and automated billing schedules.

Amount	475.00
Currency	USD
Date	March 6

Available features:

- ➔ Reduce friction at checkout and boost conversion — accept all major credit/debit cards, including Apple Pay® & Google Pay™, and ACH across platforms.
   
- ➔ Make your accountant's life easy with a dashboard that caters to all of your payment processing needs — a transaction log, dispute resolution details, batch reconciliation, and more (all easily exportable!).
- ➔ Benefit from our team of longtime vacation rental advocates that backs you every step of the way — from onboarding and transitioning processors to adding GPay to your direct website, managing disputes, and more.
