

# What is INSURHUB?

- INSURHUB is the online platform that allows you to experience insurance in a clear and informed way : from understanding your need to comparing proposals, through to management and renewal, thanks to the support of qualified professionals.
- On INSURHUB, you receive personalized proposals based on your needs, drafted by insurance intermediaries with visible profiles, specializations, and reviews.
- The process is clear: you explain what you need, you get multiple comparable proposals, you choose knowingly, and you continue to manage your policies in a single space.
- Our goal is to make insurance understandable, comparable, and person-centered , restoring trust in the relationship between client and intermediary and promoting a sustainable online model, with less waste, more awareness, and responsible processes.

# How does it work?

1. Describe your need in a few steps.
2. Receive personalized quotes from verified professionals.
3. Compare and choose. Everything is managed in a single area

"We want to bring transparency and humanity to insurance:  
no opaque algorithms, but verified professionals and simple technology at the service of people."
