

CheckCar: AI-Powered Safety for Used Car Purchases

Multimodal AI transforms car photos, registration documents, or speech into expert checklists for vehicle inspection.

CheckCar

THE PROBLEM

50 Million Used Cars Annually in Europe

Buyers face a critical information gap when purchasing a car.

Fear of Hidden Defects

Risk of over €5,000 loss due to undiscovered damage

Lack of Transparency

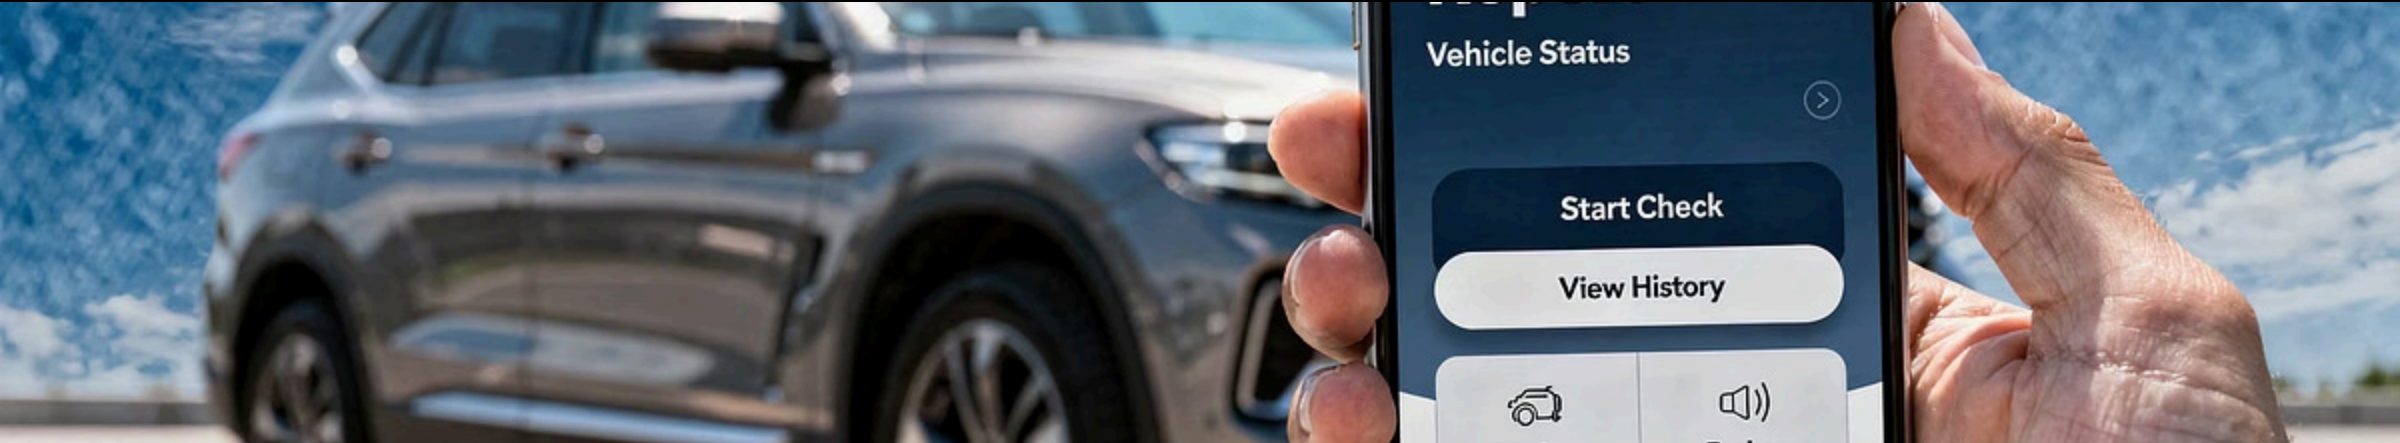

No access to complete vehicle histories

Time Waste

Hours of research without guarantee of completeness

"Imagine buying your dream car and losing €5,000 the next day due to hidden defects."

THE SOLUTION

3-Step Path to Security

CheckCar

01

Provide Vehicle Info in Seconds

- Upload photo
- Scan registration/VIN
- Simple voice command

02

AI Analysis Across Multiple Databases

Data from MOT, TÜV, ADAC, ITV, manufacturer recalls, and 100+ automotive platforms combined

03

Personalized Report in Under 2 Minutes

Smart checklist with actionable inspection points

Multiple Revenue Streams

Pay-per-Check

€2.50 per Premium Full Check

Free "Lite Check" (Basic Info)

Premium: Detailed Risk Analysis + Negotiation Guide

Affiliate Partnerships

Insurance comparison (40+ providers)

Workshop Recommendations (TÜV, DEKRA)

B2B API Licensing

For dealers, workshops, and automotive platforms

Conservative Estimate

€2.50 × 100,000 Checks/Year = €250k + Revenue

Massive Addressable Market

50M+

Used Car Transactions
(€500B market, average €10k per vehicle)

Annually in Europe

6,5M

Transactions in Germany

In the German market alone

Competitive Advantage

Unlike other Apps like ADAC-App or CarVertical (generic data):

Personalized Recommendations

Model-specific, not generic

Automated AI Analysis

No manual research required

Actionable Insights

What to check, where and why

The Impact

Automotive expertise for millions of buyers across Europe. No research. No guesswork. Just show up prepared.

Why CheckCar now?

Right Technology

State-of-the-art APIs (GPT-5, Google Vision)
for 60% cost savings

Right Market

Massive, underserved market with clear monetization
paths

Right Timing

EU transparency regulations drive demand for consumer-
friendly tools

CheckCar
